WHEN ADDED VALUE IS YOUR KEY ASSET...

FN Arena proudly presents the latest edition of what has, to our great delight, become a highly anticipated monthly event: the publication of the Australian Super Stock Report.

From this month onwards dividend and earnings per share (EPS) estimates for companies reporting in a currency different than the AUD are included. FNArena recently expanded its coverage for these estimates and translates these foreign FX data into AUD on a daily basis on its website and its various reports and publications.

As such, readers of this monthly Australian Super Stock Report can now also gauge and compare forecasts for companies including Telecom New Zealand, Henderson Group and Paladin Energy. Forecasts for companies such as BHP Billiton now disregard translations into AUD done by stockbrokers.

FNArena believes the changes incorporated have lifted the overall quality of our reporting.

FNArena continues to warn investors it is likely that analysts forecasts for fiscal 2009 and 2010 might still be too optimistic. The overall economic environment is still worsening and securities analysts have a habit of operating at the end of the curve.

This Report is a product of FN Arena's continuous drive to fully exploit the value inherent in our journalists' daily reports on what the major brokerages and equity researchers in Australia have to say about ASX listed stocks under their coverage.

FN Arena has tried to keep the information presented in this document as accurate and up to date as possible. However, we do warn readers that listed company data are changing continuously and further changes may have occurred during the production of this report.

All data are considered accurate as at May 22, 2009.

FN Arena cautions that we do not provide investment advisory services. FN Arena is not a financial advisor and we do not provide investment advice. Our sole aim is to report.

Please read our Terms and conditions on page 18, and treat and read this report accordingly.

We welcome all feedback at info@fnarena.com

Warm Regards,

Rudi Filapek-Vandyck

THIS IS HOW WE DO IT...

FN Arena journalists report each morning (Mon–Fri) about the latest updates on insights, views, analyses and changes made by the major brokerages and equity research experts in the Australian market. All reports written by our journalists are combined in the Australian Broker Call.

In our attempt to create added value, and to provide greater access to expert information and knowledge of the Australian market, we have sought to combine the information available from our daily news reports via several add-on services that allow our readers/subscribers to highlight trends and details emerging from expert views.

We believe the Australian Super Stock Report is the most extensive and detailed overview of the Australian share market available today. It contains recommendations, twelve month price targets, and comparisons for 415 individually listed companies as determined by ten leading Australian experts.

FN Arena cautions that we do not provide investment advisory services. FN Arena is not a financial advisor and we do not provide investment advice. Our sole aim is to report. Please read our Terms and conditions on page 18, and treat and read this report accordingly.

THE TABLES

FN Arena has developed its own Sentiment Indicator, which not only ascribes specific positive or negative value to a particular recommendation, but which also standardizes the pool of recommendations to provide a balanced overview for each individual stock in its database.

The indicator also pays heed to the fact that some brokers qualify their recommendations beyond a simple buy/hold/sell. While ratings such as “outperform” are equated as “buy”, and “Neutral” becomes “hold”, more qualified ratings such as “Accumulate” or “Reduce” are ascribed appropriate value as well.

The “Implied up” measurement represents the percentage deviation the average target price implies from the last traded stock price (closing prices May 22, 2009).

Estimated dividend yields are displayed in percentages (%) and earnings per share (EPS) estimates in Australian dollar cents. All these estimates are FNArena’s. The basis for these estimates is publicly available information. Dividend yields are calculated on the basis of closing share prices on May 22, 2009.

Our second table on page 6 is otherwise the same as our first table, with the exception that all 415 stocks in the FNArena universe are listed. The other obvious difference is that this table is listed alphabetically in order to assist with the swift location of a stock of interest.

The image shows a dark red banner at the bottom of the page. 7. Reference to a “visitor” means, you, a visitor to this website, and includes a subscriber to Australian Broker Call and the Australian Super Stock Report, as well as any other publications or periodicals News Network may, from time to time, publish on this website.
8. News Network is a media company which employs financial journalists to report financial news. News Network’s journalists perform the required research and collect the information that is, ultimately, each day, published on this website and in News Network’s news periodicals. As is obvious, the process by which the information is collected and delivered to you is a purely journalistic one and, therefore, the comments, opinions and recommendations News Network reports on this website are not the opinions of News Network or any of its journalist or other employees. News Network is ONLY and specifically a matter-of-fact reporter of industry signals suggesting price direction probability of some shares. News Network simply delivers the information – it does not create it.
9. Although News Network obtains the information published herein from sources deemed to be reliable, and given and received in good faith, it cannot and does not guarantee its accuracy. News Network does not take any responsibility either for the financial soundness or for the correctness of statement made or opinion expressed in the data or content reported by News Network, and cannot and does not guarantee the reliability and accuracy of the opinions of the brokers whose opinions, recommendations and forecasts it reports.
10. News Network publishes this website, all publications and its periodicals strictly for convenient personal, non-commercial, educational and informational purposes of its subscribers only. Our goal is to provide the subscribers with a convenient starting point of potentially useful, but not comprehensive, content that can educate or otherwise enhance a visitor’s knowledge base and frame of reference.
11. Nothing contained in this website is intended to be, nor shall it be construed as, advice or recommendation. Any investment or other decisions made by you must be based solely on your own evaluation of the targeted subject for investment, and your financial circumstances and investment objectives, and News Network will not be held liable for any such investments and decisions.
12. It is distinctly understood and accepted that the shares referred to in the FN Arena website, News Network’s publications and/or periodicals have not been recommended by News Network. The content and or any comments found of this website, including the content and/or comments published in any publication and/or periodicals published by News Network, do not constitute a recommendation or endorsement by News Network with respect to any company, security, share or investment or any financial or investment product.
13. This website makes no representations, and, to the extent allowed by the law, specifically disclaims all warranties, express, implied or statutory, regarding the accuracy, timeliness, completeness, merchantability or fitness for any particular purpose of any material contained in the website.
14. Before making an investment decision, you must do your own research and rely on your own examination of the share, and the risk involved, and not on what you read on the FN Arena website, or in any publication or periodical. The content of this website is provided strictly for convenient personal, non-commercial educational and informational purposes only and News Network shall not be held liable for any investment decisions, sales or purchase decisions, which you may have made based on what you have read on this website or in the periodicals published by News Network from time to time, or in any other publications News Network may publish on its website, or anywhere else, from time to time. Anyone who makes investment decisions based on what they read on this website does so at their own risk, and agrees that they cannot hold News Network responsible and/or liable for any loss whatsoever.

15. It is your responsibility to evaluate the completeness, accuracy and usefulness of any content made available on this website. If you are unsure, or in doubt about the meaning of any information, you should consult your financial advisor.

16. News Network does not guarantee any returns on investments made in any share mentioned on this website by the visitors. As any investor well knows, any investment opportunity, strategy or concept involves a degree of risk and investors should not invest any funds unless they can afford to take the risk of losing their investment. News Network strongly suggests that you consult your own financial advisors regarding the soundness of any intended investments, strategies or concepts, and discuss with such advisor your individual investment needs and goals. You may also wish to consult the broker who expressed the opinion we have reported on in the news periodicals we publish.
