# Rass Research as a Service Pioneer Credit Limited

# Turning point

Pioneer Credit Limited (ASX:PNC) is one of the leading acquirers and managers of impaired credit in Australia and has gained its status by maintaining positive customer engagement, an unblemished compliance record with ASIC, and strong relationships with Australia's largest bank and non-bank lenders. PNC purchases debt from numerous Australian vendor partners including a long-term purchasing partnership arrangement with Commonwealth Bank of Australia (ASX:CBA). We believe Pioneer's success in purchasing large debt portfolios at attractive IRRs in FY24 highlights the strong position the company occupies in the marketplace. PNC has successfully refinanced increasing capacity and lowering finance costs from BBSW +875bps to BBSW +550bps. We think the benefit of the cost reduction combined with improving market dynamics and efficient operations leaves PNC in a significantly more secure position compared to the period post-COVID and AASB changes. We expect these structural improvements to flow through to improved returns over the next two years, noting FY25 guidance and FY26 management LTI targets are both within our forecast range. Pioneer's return to dividend paying is possible but will be affected by taxable status following recognition of the deferred tax asset.

# **Business model**

Pioneer Credit Limited acquires and manages performing and non-performing consumer debt portfolios (PDPs). The company acquires portfolios of defaulted consumer (non-mortgage) debts from the "Big Four" banks and other credit providers. Operations involve purchasing distressed debt portfolios at a discounted rate and then collecting the outstanding amounts from the debtors. PNC generates revenue by recovering the debts via contacting the debtors and negotiating payment arrangements or settlements. The company borrows at a margin over bank bills to fund purchases of PDPs, paying a discounted face value typically less than \$0.20/\$ of debt. Profit then depends on ethical and efficient management of the debtor/customer and accurate assessment of the credit risk inherent in the debtor profile.

### Resolution of financing clears the way

Pioneer has returned to (normalised) profit posting FY24 NPAT of \$1.2m. The impact of recognising \$21.4m in deferred tax assets and a precautionary provision for the potential impact of economic deterioration of \$17.8m delivered a statutory loss of \$10.0m. Most importantly, PNC finalised a refinance, lowering future interest costs and increasing borrowing capacity, in a period of increased opportunity and reduced competition in the Purchased Debt Portfolio (PDP) market. Management believes the company is in a strong position to expand PDP purchases and returns from the business.

# Valuation base case at \$263m (\$1.96/share)

Our valuation presumes an ongoing business rather than treating the company as a run-off portfolio. The valuation is based on the discounted cash-flow methodology using a discount rate of 16.5% (beta 2.0, risk-free rate 3.5%). We have modelled three cases mainly differentiated by finance margin, PDP price and cash collection performance, and including a cyclical component in our estimates. Our base-case valuation has increased to \$263m or \$1.96/share [(from \$217m or \$1.93/share) reflecting improved financing and increased shares on issue. Our downside case values PNC at \$247m (\$1.84/share), while we can see potential upside to \$300m (\$2.23/share) using a range of more positive factors. Finance interest margin and cash collection performance are the crucial determinants of value, in our view.

# **FY24** Result Analysis

Pioneer again reported strong revenue growth and increased PDP acquisition activity in an improved competitive landscape, and a strongly positive outlook. Key aspects of the FY24 result included:

- Write-back of the \$21.4m deferred tax asset as the company returns to profit. This suggests PNC will not pay tax for at least several years;
- The board made a precautionary impairment of \$17.8m against the PDP portfolio in light of a potentially weakening economic position following a period of higher interest rates and higher inflation;
- PNC incurred a range of one-off costs associated with refinancing and other expenses of \$11.2m resulting in a normalised profit of \$1.2m.

### Exhibit 1: Fiscal year data on a statutory basis (A\$m)

Source: Company data (statutory basis)

Using management's presentation (which normalises other income - generally reversionary benefits from PDP vendors - and excludes one-off expenses and the precautionary impairment) we see a 9.4% rise in cash collections following growth in the PDP portfolio since the lows in FY20 and FY21.

#### Exhibit 2: Management presentation format (A\$m)

Operating expenses fell and EBIT rose a strong 13% prior to the affect of the one-off impacts shown in Exhibit 3 below. Despite the burden of high legacy finance costs PNC's underlying operations continue to strengthen.

### Exhibit 3: Normalised profit waterfall (A\$m)

PDP amortisation was higher reflecting the higher level of collections. PNC noted that the replacement rate of the PDP portfolio (i.e. PDP acquisition) is currently \$56m p.a and reported that the ERC had increased 13% following higher purchasing and (implied) improvements in portfolio pricing.

Source: Company data

PNC's reconciliation of the management presentation of cash collections and PDP acquisitions includes a \$4.3m accounting adjustment which was required but is not a true representation from a management reporting perspective.

### **Key Events**

Significant events in the year included:

- Replaced expensive financing following settlement of a new four-year \$273m syndicated debt facility;
- Made a precautionary impairment of \$17.8m despite current strong portfolio performance;
- Recognised \$21.4m of deferred tax assets;
- Improved EBITDA margin via cost control and improved cash collections;
- Continued competitor withdrawal from the market enhanced PNC's position and outlook, and provided opportunities for acquisition of well-priced portfolios following competitor exits during the year.

# **Investment Case**

We reiterate some points made in previous research. In our view, Pioneer Credit Limited is positioned to grow strongly in the next two years due to:

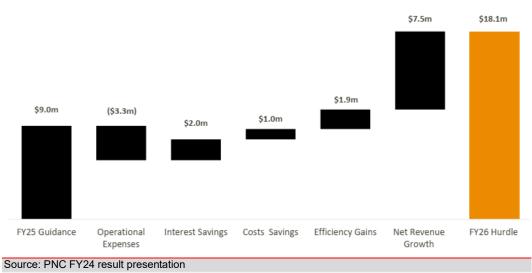

- Strong credit purchasing discipline has been maintained;
- Competition in the market for debt portfolios is declining due to corporate failures, consolidation and strategic withdrawal;
- Volumes of PDPs offered for sale by major banks and non-bank institutions have increased in a higher inflation, higher interest rate environment;
- Pioneer has maintained strong relationships with vendor partners including a five-year partnership agreement with Commonwealth Bank and agreements with 13 bank and non-bank vendors. PNC purchasing represents only 25% of the estimated PDP market;
- Management interests are strongly aligned with shareholders through ownership and a long-term incentive plan with three years of annual targets and the final LTI hurdle of NPAT >\$18m in FY26. Our upside case for FY26 exceeds this level.

# **Outlook and Forecast Changes**

Guidance of "more than \$9m in NPAT for FY25" is consistent with our expectations of the impact of the refinancing and improved portfolio yields. We have raised our forecasts following the result and increased certainty around both the market and finance costs. For FY26 we remain slightly conservative relative to management targets, however our upside case exceeds the management target for FY26 shown in Exhibit 6.

Our forecasts have therefore increased because of:

- Forecast period roll-forward;
- Expected improvements in portfolio yields;
- Growing market opportunity as vendors return; and
- Impact of lower finance costs and efficiency gains.

### What Financial Services are we authorised to provide? RaaS is

### authorised to

provide general advice to retail and wholesale clients in relation to
 Securities

The distribution of this FSG by RaaS is authorized by BR.

#### Our general advice service

Please note that any advice given by RaaS is general advice, as the information or advice given will not take into account your particular objectives, financial situation or needs. You should, before acting on the advice, consider the appropriateness of the advice, having regard to your objectives, financial situation and needs. If our advice relates to the acquisition, or possible acquisition, of a particular financial product you should read any relevant Prospectus, Product Disclosure Statement or like instrument. As we only provide general advice we will not be providing a Statement of Advice. We will provide you with recommendations on securities.

#### How are we paid?

RaaS earns fees for producing research reports about companies we like, and/or producing a financial model as well. When the fee is derived from a company, this is clearly highlighted on the front page of the report and in the disclaimers and disclosures section of the report. Sometimes we write reports using our own initiative.

#### **Associations and Relationships**

BR, RaaS, its directors and related parties have no associations or relationships with any product issuers other than when advising retail clients to invest in managed funds when the managers of these funds may also be clients of BR. RaaS's representatives may from time to time deal in or otherwise have a financial interest in financial products recommended to you but any material ownership will be disclosed to you when relevant advice is provided.

#### Complaints

If you have a complaint about our service, you should contact your representative and tell them about your complaint. The representative will follow BR's internal dispute resolution policy, which includes sending you a copy of the policy when required to. If you aren't satisfied with an outcome, you may contact AFCA, see below.

BR is a member of the Australian Financial Complaints Authority (AFCA). AFCA provide fair and independent financial services complaint resolution that is free to consumers.

#### DISCLAIMERS and DISCLOSURES

This report has been commissioned by Pioneer Credit Ltd and prepared and issued by RaaS Research Group Pty Ltd, trading as Research as a Service. RaaS Research Group has been paid a fee to prepare this report. RaaS Research Group's principals, employees and associates may hold shares in companies that are covered and, if so, this will be clearly stated on the front page of each report. This research is issued in Australia by RaaS Research Group and any access to it should be read in conjunction with the Financial Services Guide on the preceding two pages. All information used in the publication of this report has been compiled from publicly available sources that are believed to be reliable. Opinions contained in this report represent those of the principals of RaaS Research Group at the time of publication. RaaS Research Group provides this financial advice as an honest and reasonable opinion held at a point in time about an investment's risk profile and merit and the information is provided by the RaaS Research Group in good faith. The views of the adviser(s) do not necessarily reflect the views of the AFS Licensee. RaaS Research Group has no obligation to update the opinion unless RaaS Research Group is currently contracted to provide such an updated opinion. RaaS Research Group does not warrant the accuracy of any information it sources from others. All statements as to future matters are not guaranteed to be accurate and any statements as to past performance do not represent future performance.

Assessment of risk can be subjective. Portfolios of equity investments need to be well diversified and the risk appropriate for the investor. Equity investments in listed or unlisted companies yet to achieve a profit or with an equity value less than \$50 million should collectively be a small component of a balanced portfolio, with smaller individual investment sizes than otherwise.

The science of climate change is common knowledge and its impacts may damage the global economy. Mitigating climate change may also disrupt the global economy. Investors need to make their own assessments and we disclaim any liability for the impact of either climate change or mitigating strategies on any investment we recommend.

Investors are responsible for their own investment decisions, unless a contract stipulates otherwise. RaaS Research Group does not stand behind the capital value or performance of any investment. Subject to any terms implied by law and which cannot be excluded, RaaS Research Group shall not be liable for any errors, omissions, defects or misrepresentations in the information (including by reasons of negligence, negligent misstatement or otherwise) or for any loss or damage (whether direct or indirect) suffered by persons who use or rely on the information. If any law prohibits the exclusion of such liability, RaaS Research Group limits its liability to the resupply of the Information, provided that such limitation is permitted by law and is fair and reasonable.
