RF1 Adds New Strategy

The Investment Committee of Regal Investment Fund (ASX: RF1) has approved the addition of the Water Strategy to the Fund. The exposure to the Water strategy will be via the Kilter Water Fund, which is managed by Kilter Pty Limited, a subsidiary of Regal Funds Management. The initial allocation to the strategy is expected to be implemented from 1 August 2022 and is expected to represent less than 5% of the Fund's NAV initially. The strategy can represent a maximum of 25% of the Fund. The pace at which the Manager will deploy capital is at the discretion of the Manager and dependent on market conditions.

The Water strategy seeks to invest in water entitlements and water allocation assets and to generate investment returns by providing water allocation and water products to irrigation farmers and through appreciation in the value of investment assets. The Investment Committee believes the addition of the Water strategy to the portfolio will increase portfolio diversification and enable RF1 to better deliver on its investment objective.

DJW Seeks to Raise Capital Through SPP

On 19 July 2022, Djerriwarrh Investments Limited (ASX: DJW) announced a Share Purchase Plan (SPP) to raise capital for investment purposes. Eligible shareholders will be able to invest up to \$30,000 in new DJW shares. Shares will be issued at the lower of \$2.78 or a 2.5% discount to the VWAP of DJW shares over the 5 trading days up to and including the close of the offer. Shares issued under the offer will be eligible for the interim dividend which will be paid in February 2023.

Magellan FuturePay (CXA: FPAY) Closes

During July, Magellan announced it had resolved to terminate FPAY and return capital to investors with the closure taking effect on 20 July 2022.

The assets of FPAY were realised and the net proceeds distributed to investors. The Support Trust that comprised a separate pool of assets that was managed for the purposes of supporting FPAY was wound up and the proceeds formed part of the assets of FPAY. Magellan made an additional payment to those investors who would otherwise receive less than their original investment, after allowing for distributions received. The costs associated with the closure (except the transaction costs of realising FPAY's assets) were covered by Magellan and not borne by FPAY.

Active ETFs

About Active ETFs

Active ETFs are a type of exchange traded product (ETP) traded on the ASX and Cboe Australia. While traditional exchange traded funds (ETFs) adopt passive strategies that synthetically track the performance of an index or other benchmark. Active ETFs are actively managed funds. The legal structure is the same as a traditional managed fund, but the units can be bought and sold on the ASX just like shares. Unlike listed investment companies, Active ETFs are open-ended with a market maker. This ensures the units trade close to net asset value. The manager issues new units as required to meet market demand.

WHO IS IIR?

Independent Investment Research, "IIR", is an independent investment research house based in Australia and the United States. IIR specialises in the analysis of high quality commissioned research for Brokers, Family Offices and Fund Managers. IIR distributes its research in Asia, United States and the Americas. IIR does not participate in any corporate or capital raising activity and therefore it does not have any inherent bias that may result from research that is linked to any corporate/ capital raising activity.

IIR was established in 2004 under Aegis Equities Research Group of companies to provide investment research to a select group of retail and wholesale clients. Since March 2010, IIR (the Aegis Equities business was sold to Morningstar) has operated independently from Aegis by former Aegis senior executives/shareholders to provide clients with unparalleled research that covers listed and unlisted managed investments, listed companies, structured products, and IPOs.

IIR takes great pride in the quality and independence of our analysis, underpinned by high caliber staff and a transparent, proven and rigorous research methodology.

INDEPENDENCE OF RESEARCH ANALYSTS

Research analysts are not directly supervised by personnel from other areas of the Firm whose interests or functions may conflict with those of the research analysts. The evaluation and appraisal of research analysts for purposes of career advancement, remuneration and promotion is structured so that non-research personnel do not exert inappropriate influence over analysts.

Supervision and reporting lines: Analysts who publish research reports are supervised by, and report to, Research Management. Research analysts do not report to, and are not supervised by, any sales personnel nor do they have dealings with Sales personnel.

Evaluation and remuneration: The remuneration of research analysts is determined on the basis of a number of factors, including quality, accuracy and value of research, productivity, experience, individual reputation, and evaluations by investor clients.

INDEPENDENCE – ACTIVITIES OF ANALYSTS

IIR restricts research analysts from performing roles that could prejudice, or appear to prejudice, the independence of their research.

Pitches: Research analysts are not permitted to participate in sales pitches for corporate mandates on behalf of a Broker and are not permitted to prepare or review materials for those pitches. Pitch materials by investor clients may not contain the promise of research coverage by IIR.

No promotion of issuers' transactions: Research analysts may not be involved in promotional or marketing activities of an issuer of a relevant investment that would reasonably be construed as representing the issuer. For this reason, analysts are not permitted to attend "road show" presentations by issuers that are corporate clients of the Firm relating to offerings of securities or any other investment banking transaction from that our clients may undertake from time to time. Analysts may, however, observe road shows remotely, without asking questions, by video link or telephone in order to help ensure that they have access to the same information as their investor clients.

Widely-attended conferences: Analysts are permitted to attend and speak at widely-attended conferences at which our firm has been invited to present our views. These widely-attended conferences may include investor presentations by corporate clients of the Firm.

Other permitted activities: Analysts may be consulted by Firm sales personnel on matters such as market and industry trends, conditions and developments and the structuring, pricing and expected market reception of securities offerings or other market operations. Analysts may also carry out preliminary due diligence and vetting of issuers that may be prospective research clients of ours.

INDUCEMENTS AND INAPPROPRIATE INFLUENCES

IIR prohibits research analysts from soliciting or receiving any inducement in respect of their publication of research and restricts certain communications between research analysts and personnel from other business areas within the Firm including management, which might be perceived to result in inappropriate influence on analysts' views.

Remuneration and other benefits: IIR procedures prohibit analysts from accepting any remuneration or other benefit from an issuer or any other party in respect of the publication of research and from offering or accepting any inducement (including the selective disclosure by an issuer of material information not generally available) for the publication of favourable research. These restrictions do not preclude the acceptance of reasonable hospitality in accordance with the Firm's general policies on entertainment, gifts and corporate hospitality.
